

Inside Templates

Cut out one of these templates if you want to mark or cut the holes from **the inside** of the air purifier box.

Place the appropriate template on the inside of the top panel of the air purifier box all the way in the back corner with the printed side of the template face up and visible.

Outside Templates

Cut out one of these templates if you want to mark or cut the holes from **the outside** of the air purifier box.

Place the appropriate template on the top of the air purifier box and align it with the back corner of the top panel with the printed side of the template face up and visible.
